Division 21's April Calendar

Axe Capoeira Dance Residency (Apr. 8-19)
Details to follow from the school.

Science World (April 24) We will be visiting the Science World to continue our learning about forces and motion. Parent drivers will be leaving the school at 10am and leaving Science World at 2pm. Please send your child's **car seat**, and their **snack and lunch in a paper bag with their name** on the outside. (No backpacks will be brought.)

 <h1>April</h1>				
Monday	Tuesday	Wednesday	Thursday	Friday
Tell someone a make-believe story about a raindrop. 	Write the alphabet in capital letters.	Finish this sentence: <i>The world would be a better place if everyone . . .</i>	Pretend you are a raindrop floating to the ground. Act it out.	Look at a clock. Name the minute. 
List five words that describe you.	Make happy, sad, scared, angry, and excited faces.	Retell your favorite story to someone in your family.	Bounce a ball five times with one hand and then the other. 	Guess how many spoonfuls of rice it takes to fill a glass. Try it.
Draw a picture of what you want to be when you grow up. 	Have someone read you a story. Change the ending.	Write your name five times, each time with a different crayon. 	Write the numbers from 15 to 30.	Put a handful of toothpicks or pennies into groups of ten. How many groups do you have?
Write your phone number.	Say the sound of each letter in the alphabet.	Read a book to a family member by describing the pictures.	Measure the people in your family. Who is the tallest? Shortest?	Fill a tray with sand or rice. With your finger, write the numbers from 1 to 10 in the tray.
Draw a picture of what you and your best friend like to do together.	Find all the square shapes in one room of your house.	Draw a picture of your favorite animal. 	Fill a cup half-full with water.	Name ten things bigger than a car.
