BYOD – Bring Your Own Device This year we are giving students the option to bring their own device (a laptop or tablet). We will be using Teams and Class Notebook periodically so that students are familiar with it if we have to go back to a hybrid or on-line option (and to stay more current in today's world!). For those students who do not have this option available to them, we will manage with the technology we have available at school. If you choose to send your child to school with a device, we can lock it up if required, but please know **the class and school are not responsible for its care.**
