Problem Solving
Printables Freebie

3 addition word problems
3 subtraction word problems

By JD's Firsties

How I Use These Printables

End of Workshop Assessment Activity: I typically use these printables at the end of our math workshop. I like ending our math workshop block with a problem solving assessment/activity because it keeps this skill fresh and gives the kids daily problem solving practice. If you don't want to use this as an individual assessment/activity you can display the question on the promethean board and solve the problem whole group.

Math Tubs: Print out the questions and put the pages in sheet protectors. Using white board erasers have the students solve each word problem at a math station.

Name _____

Add 1

Our class planted 11 seeds on Monday. On Tuesday we planted 7 more seeds. How many seeds did our class plant?

Number Sentence:

Answer:

Name _____
