

Plant Life Cycle Flip Book

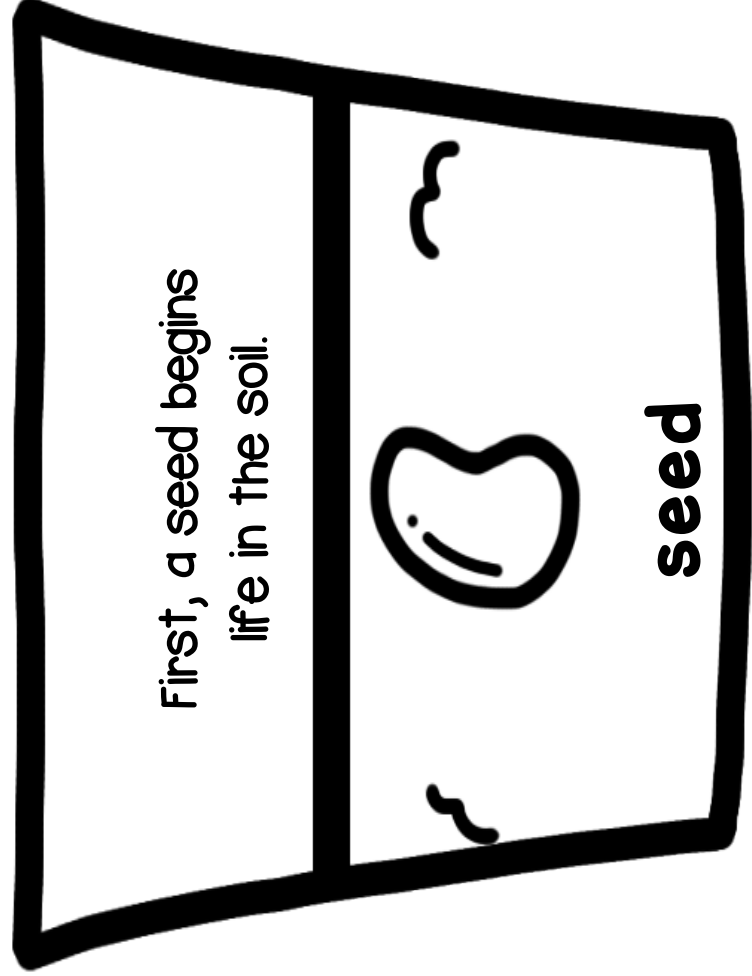

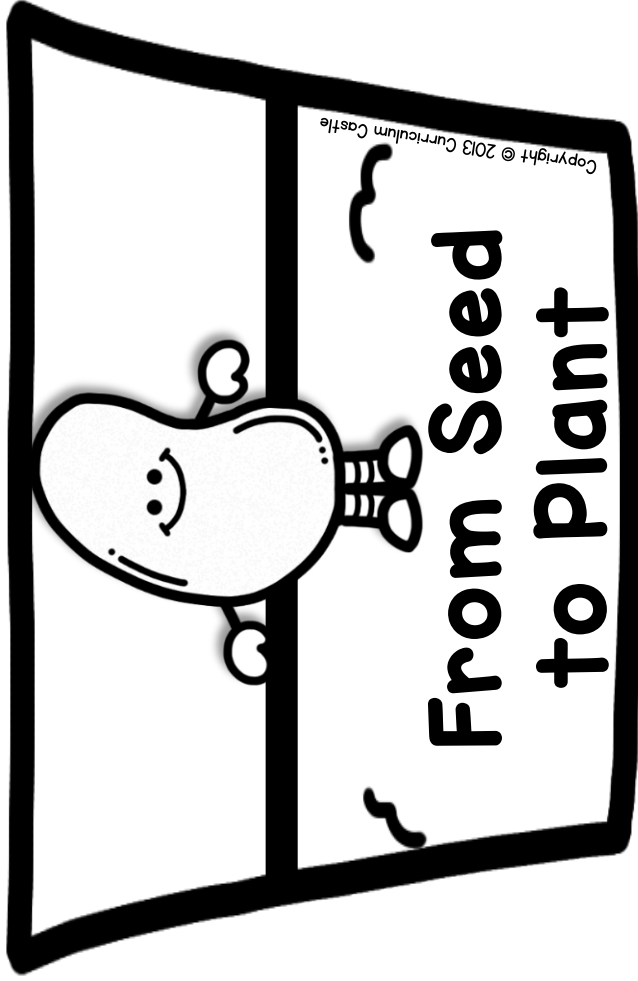

Materials:

- mini flip book pages on pages 8-9
- scissors
- crayons/markers
- stapler

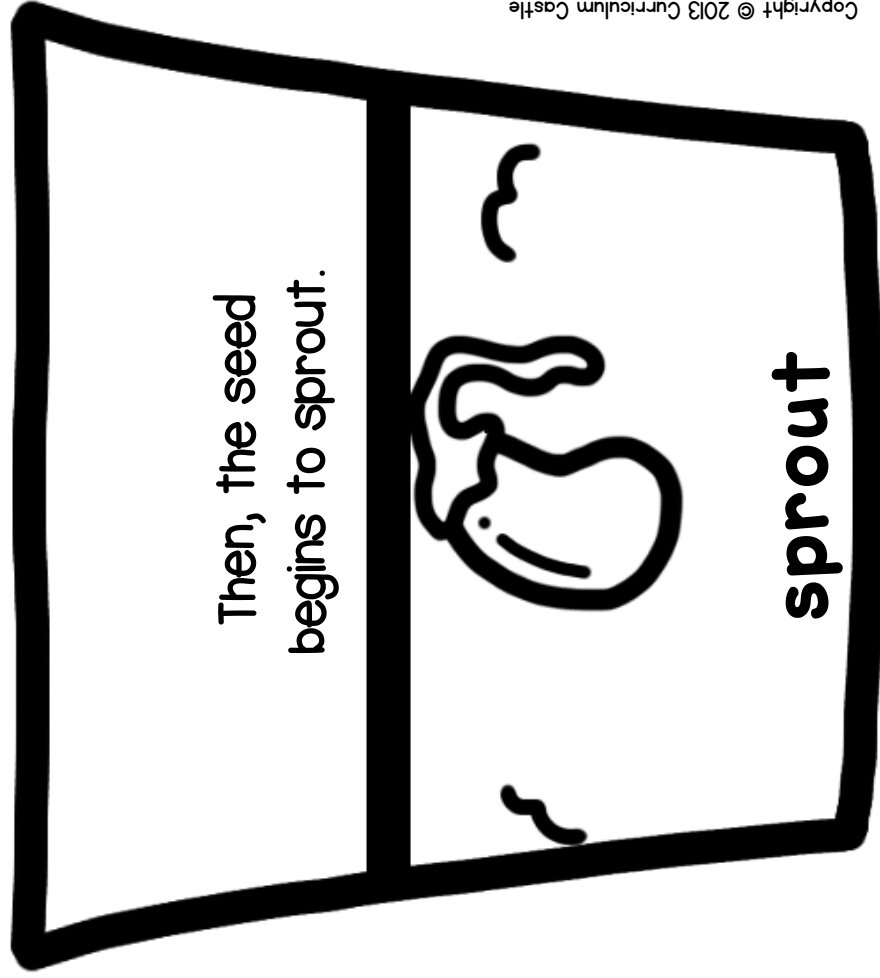

Directions:

1. Have students color and cut out the mini book pages.
2. Next, layer the pages in the following order: cover (should be at the top), seed, sprout, seedling & plant (at the bottom of the book).
3. Staple the flip book at the top of the "From Seed to Plant" cover page.
4. Students can read their mini books independently, in groups, or as a class!

First, a seed begins
life in the soil.

Then, the seed
begins to sprout.
