Watch the video, and then answer the following questions:

1. How is searching for sand dollars similar to searching for ancient artifacts? How is it different?
2. How can high-tech tools such as satellite imaging be used to find out about the past?
3. How can lower-tech techniques, such as coring, be used to find out about the past?

Consider the ancient Egyptian quotation:

*“Sharing knowledge is the greatest of all callings.
There is nothing like it in the land.”*

4. How might have ancient Egyptians shared knowledge?
5. How do we share knowledge today?
