

**Morning message:**

Welcome Back! I'm sure you all had a great day off yesterday—and are anxious to get back to it 😊 . Today we will work on our animal research project together. You will need the book we made, a pencil, and your crayons—you might even want a ruler to draw a line with.

Click on her <a href="#">blog</a> and look under Primary Dance!</p>
11:30	<p><b>*Math</b></p> <p>Today we are going to explore <b>mass</b>—that is how <b>heavy</b> or <b>light</b> something is—or how much it <b>weighs</b>. You have probably had the Doctor weigh you on a scale when you go for a check-up...and maybe you even have a scale in your kitchen or bathroom. Today we are not going to use a scale, but instead we are going to <b>estimate</b> what items might be <b>heavier</b> or <b>lighter</b> than us.</p> <p>Using this <a href="#">sheet</a> as a guide, find:</p> <ul style="list-style-type: none"> <li>• 3 things that <b>you</b> are <b>heavier</b> than</li> <li>• 3 things <b>you</b> are <b>lighter</b> than</li> </ul> <p>Record your results—don't forget to label your drawings and send me your work 😊 Happy measuring!</p>
12:00	<p><i>Lunch</i></p>
1:00	<p><b>*Nature School</b></p> <p>Check out the <a href="#">Eagle</a> cam and/or the <a href="#">Hummingbird</a> cam—then head outside and see if you can find any signs of birds...How many will you see? Can you name them? Can you sketch one?</p> 
3:02	<p><i>Dismissal</i></p>
