Gym Inside or Outside today???

INSIDE:

Check out the [Resources](#) page (look under Physical Health & Education) on our website for the dances we do inside our classroom when the gym is closed. They are all available on YouTube!

OUTSIDE:

Grab your skipping rope, a soccer ball or your bicycle and head outside to enjoy some exercise—If we were at school, we would continue to practice our skipping for the Jump Rope for Heart event...so skip away. If you're looking for a skipping challenge check out this [video](#)

***Math**

Today's math activity is part 2 of a lesson we did on April 20th. Once again, it is a little bit of math and a bit of art and even a bit of mapping. You are going to draw a map of your **dream** room. Architects and designers call these maps **floor plans**. To do this, you need to imagine that you can climb or fly up to your ceiling and look at your room from above just like a bird looks at the earth. What does your room look like from up there, what shapes do you see, what are some of the things that you can't see? Now imagine what your room would look like if you could have **anything** in it you wanted...what would you add?

Here is Charlie's original floor plan for her room: I wonder what she will change or add for her **dream** room?

Remember these tips about how to make a floor plan:

1. Always use a ruler (or another straight edge) to draw straight lines
2. Use a pencil in case you make a mistake
3. Do a draft copy to practice
4. A sharp pencil helps
5. Draw where North is on your paper
6. Only draw large furniture, windows, and

doors

7. When you are ready, use a black marker and draw over the pencil

Be creative!! I'd love to see your plan when it's finished.

Drama

Watch & listen to the story of [Jack](#) & The Beanstalk—then act out the story as one of the characters...who would you be? Why? Do you notice anything different about this version? Can you find other versions to read or listen to?
