

Morning message:

Good Morning. I was happy to go to the school yesterday—but it wasn't the same without you. 😞 I hope we will be there together soon. Until then, let's have as much fun as we can learning at home.

***Math**

Math you can eat! Yummy! This is one of my favourite Math You Can Eat lessons!

You can record on this [sheet](#) or use a blank piece of paper.

1. Trace your hand on a piece of paper.
2. Choose a cereal (cheerios or fruit loops work well)
3. Estimate how many pieces of cereal it will take to cover the **area** of your hand—record that number.
4. Using the cereal you have (not rice krispies that will take forever!!!) cover the entire **area** inside the hand you traced.
5. Now count how many pieces it took...record that number.
6. Now you can eat!!! Mmm...

Was your estimate...greater than, equal to, or less than your actual count?

Nature School

Ms. McKenna and I were talking and decided that this week we would create a Photo [Scavenger](#) Hunt for you. All you need is your

eyes and something to take pictures with. Check out the items you are looking for above. You can find as many as you like, but we're asking you to take photos of 4 and send them to us. (remember no faces please!)

Happy Hunting!!
