

## Sort 14 Yellow Group Explanation

We are continuing to differentiate between long and short vowel 'o' sounds.

Long A with a magic or silent 'e' (CVCe) and long A with double vowels 'oa' (CVVC) versus short a sounds (CVC).

In this sort oddball words are love (silent 'e' without a long O sound) and one (not a short O or long O)

Hope this helps!

Dianne.
