

Le Calendrier 2022

Create a 12 month calendar for 2022! Each of your calendar pages must include:

- Month in French (no capitals)
- Days of the week in French (no capitals)
- The correct dates for each month
- Any holidays or important dates that month in French (Ms. G will help with this)
- The season in French
- A picture/comic/cartoon that connects to the month or the month's events
- Colored, finelined

You may write, draw or print the different pieces to your calendar but if printing, your words or pictures must be cut and pasted onto the template. Remember this is a month long project so this must show your best work (spelling, details, neat). You will be given some class time but will have to complete this independently.

Finished projects will be due on **Monday, January 24th**.
