Playlist of my Life

1. Create a playlist of songs that you think best represents you!

Consider:

- What genre of music best represents you? (Pop, musical theatre, rap, opera, jazz, etc.)
- What moods/feelings sum up your personality?
- Do the lyrics represent you or your life?
- Do you want to include any songs that are important to your family?
- Are there any songs that you related to at one time in your life but not any more?

Your playlist should include 6-8 songs (but can include more!). Include the title, artist who performs the song and your favourite musical moment. Your favourite musical moment is why the song appeals to you-- a specific lyric, instrument choice, dynamics, mood of the piece, etc.

2. After you have created your playlist choose one piece you feel BEST represents you. You will explore this piece further including the musical elements and why you chose it.

3. Create cover artwork for the song you have chosen. You can use the template attached or do something all your own. Consider the overall mood/feelings of the piece. Select words, images, symbols, colours that best represent the music.

Consider talking to friends and family to help you create a playlist that is uniquely you!
