

# Oh Watch the Stars

Oh watch the stars, see how they run.

Oh watch the stars, see how they run.

The stars run down at the setting of the sun.

Oh watch the stars, see how they run

A night sky with a full moon in the top right corner, numerous stars scattered across the dark blue background, and a bright shooting star with a long, curved trail of light on the left side. The bottom of the image shows a dark, curved horizon line.

Oh watch the wind, see how it blows,  
Oh watch the wind, see how it blows.  
The wind shall blow when the sun is going down.  
Oh watch the wind, see how it blows.

A night sky with a full moon in the top right corner, a shooting star with a long, glowing trail on the left side, and numerous stars scattered across the dark blue background. A black silhouette of a horizon line is at the bottom.

Oh watch the moon, see how it glows.  
Oh watch the moon, see how it glows.  
The moon glows white in the middle of the night.  
Oh watch the moon, see how it glows.
