

3. Draw an array and write a multiplication sentence for each question.

- a) 3 rows; 4 dots in each row b) 4 rows; 5 dots in each row c) 2 rows; 3 dots in each row

4. Write a multiplication statement for each array.

5. Draw arrays for these products.

- a) 3×5 b) 3×4 c) 4×6 d) 3×7 e) 1×5 f) 0×3

6. Use counters or draw arrays (of dots or squares) to model each question. Write a multiplication statement for each question.

- a) On a bus, 4 people can sit in a row.
There are 5 rows of seats on the bus.
How many people can ride on the bus?

- b) Peter puts 6 stamps in each row of his stamp book.
There are 3 rows of stamps.
How many stamps are there altogether?

- c) John plants 5 rows of trees with 3 trees in each row.
How many trees did John plant?

7. Draw an array showing 2×3 and 3×2 . Are the products 2×3 and 3×2 the same or different? How do you know?
