Exploring Careers Project

As part of the CTE curriculum, we will be learning about a variety of careers and the skills needed in order to successfully gain employment in different career areas (career clusters).

Your Mission: Individually, research a one career that interests you. Create a presentation (PowerPoint, Poster, TriFold, 3D object, Pamphlet, etc.), that outlines the guidelines listed below.

Guidelines:

- Research and choose one career that interests you. Title your presentation with the career that you have chosen. **Be creative, look for careers that you haven't heard of before** (5 points)
- What career cluster does your chosen career fit in? (5 points)
- Explain the job duties and responsibilities of our career. (10 points)
- Explain the skills and interests needed to be successful in this career. (5 points)
- What is the salary range? (*How much money could you make, per year*) (5 points)
- Education & Experience Requirements: (15 points)
 - How many years of education/college are needed to get this career?
 - What would you need to major in (study), while in college?
 - How many years of experience or years of related work is required?
- Your work should be clear and organized. You may type or neatly write each of the guideline requirements. (5 points)

Total Points: 50 Points
