

Division 13 June Newsletter

Birthdays

We have a few summer birthdays that we will be celebrating this month which you will see on the calendar.

Library

All Library books are due back June 7 as the library will be closed for inventory. Library will continue in September. I encourage you to visit the public library through June and the summer. They often have summer reading programs for kids and are a great resource!

Outdoor Classroom (Everyday)

We will be going outside rain or shine, so please ensure your child has appropriate weather attire. Sunscreen is also important as we start having sunny and warm weather!

Show and Tell

On our monthly calendar I have listed which student will be on each day. I will be sending home a sheet for your child to fill out with you about what they would like to share.

Scholastics

Class code: RC124055

Our learning

In May we spent time strengthening our relationships and working on solving problems. Everyone has been working really hard to talk to each other when they do not like something or they need a break. Our caterpillars are almost to the butterfly stage. We expect them to be coming out of their Chrysalis this week.
