

Burnaby Mountain Secondary

Calculus 12 Course Outline

Course Mark:

The Pre-Calculus Mathematics 12 Course is divided into 7 chapters. Each chapter is worth the following percentages of the Course Mark.

Topics

Chapter 1	Functions And Models	8%
Chapter 2	Limits And Derivatives	10%
Chapter 3	Differentiation Rules	10%
Chapter 4	Applications of Differentiation	10%
Chapter 1-4	Midyear Exam	12%
Chapter 5	Integrals	12%
Chapter 6	Applications of Integration	13%
Chapter 7	Techniques of Integration	13%
Chapter 5-7	Final exam	12%

Evaluation

Tests	85%
Quizzes	15%

Grading:

The Burnaby Mountain Mathematics Department uses a Cumulative Grading system. This means that each chapter is worth a specific percentage of the entire course. Each term mark will be a reflection of the student's learning up until that point. The Final mark will **not** be an average of each term but rather a mark showing the student's level of mastery throughout the entire course.
