

CAN YOU FOLLOW DIRECTIONS ?

1. In the centre of your paper, draw a large haunted house. This will be the main part of your picture. It can be as many stories high as you wish.
2. Your house has 2 turrets. One is a little higher than the other. They both have pointed tops.
3. There is a very large main door in the centre of the house front. It is a double door, bound together with chains.
4. The house has four windows in the front facing you. They are tall and rectangularly shaped. They have shutters on either side. The panes are broken in all but one window. There are no curtains visible.
5. There are 8 steps leading up to the door. They are old and rickety. There is a broken wooden railing on the right side of the steps.
6. Above the door is a sign crookedly hung--the words can no longer be read.
7. The original colour of the house was blue with a black roof, but age has to be considered--it has taken its toll. The paint is almost all off and bare boards show.
8. There is a brick chimney showing at the left rear of the house.
9. There is a rickety old, iron fence around the house. The gate is broken but open. A black cat sits near the fence.
10. There is a path grown over with weeds, which was originally made of stones. The path winds its way through the gate, through the yard and up to the steps.
11. The whole yard is grown over with grass and on the left side of the house there is a mound covered with weeds and grass.
12. The sky is dark--it's midnight. There is a full moon, semi-covered with dark clouds.
13. Something (someone?) is seen peeking out of one of the windows. Something is seen suspended from its hand, trailing out the window.
14. Four white ghostly figures are seen somewhere in the picture. One carries a lighted candle.
15. At least 3 bats are seen flying out of one of the windows. They fly off towards the mound.
16. A skeleton is seen propped up against one side of the house. (optional)
17. A very large bare tree is seen in the ^{top} right hand corner. Cobwebs hang from its branches.
