

*Thinking like an  
archeologist...*

You have discovered the remains of an extinct animal. Tell a story of how the animal lived, why it became extinct, and how it might have been saved from extinction. Design a sketch of your extinct animal and give it a creative name.

## RAINY DAY SHELTER

Using items around the house, create a shelter that will protect you from the fall weather. Things to think about...

Where is the best place to build a shelter?

Are you building it outside or inside?

How many people can fit into the shelter?

What special features does it have?

### **Circle of Life Puzzle**

1= R per Y of a T's L

Hint: Age indicator.
