

WATERSLIDE

Can you name three consecutive days without using the words Monday, Tuesday, Wednesday, Thursday, Friday, Saturday, or Sunday?

Create a waterslide using tin foil and toilet paper rolls. How far can you get the water to go? Do you have a toy character at home that can go down this water slide?

Imagine...

A world where you can only eat three meals for the rest of your life. What would you pick? Why would you pick them?
