

Welcome To **IMAGINATION ISLAND**

Dear Student,

Congratulations! You are invited to design and plan your very own island on planet earth. You can be as creative as you want as long as your island is rich with landforms. You will use the planning page to decide which landforms you want to use and how your island will look.

Feel free to get creative! Alongside landforms, you can also add places for the inhabitants of your island to work, play, and live. Perhaps your island needs a shopping center or adventure park!

You will need to create a model of your island to show the world. Using a paper plate and craft materials, create a 3D map of your island. Try using materials like play doh, paper, pipe-cleaners, toothpicks or anything else that you can find!
